Open Cell Spray Foam Insulation

Your best advantage
in spray foam insulation
from a name you can trust.

CertainTeed 

Quality made certain. Satisfaction guaranteed.™

If you want open cell spray foam insulation, you want CertainTeed.

NEW CERTASPRAY™ OPEN CELL FOAM INSULATION.

- Newest addition to CertainTeed's complete line of insulation products.
- Supported by CertainTeed's Building Science department, experts in recommending the best-performing thermal envelopes.
- A great product to solve your builders' tough insulation requirements.
- Contributes to sustainable building practices by providing a consistent air barrier for the entire building envelope.

RELY ON THE CERTAINTEED BUILDING SCIENCE EXPERTS.

- Nobody understands the science of building better than CertainTeed.
 - Heat, air and moisture flow.
 - How the building envelope interacts with a home's mechanical systems and occupants.
 - The right insulation system for your local climate.
 - Ventilation options and requirements.
- A whole-house system perspective provides energy-efficient, comfortable and healthy living environments.
- Tap into our Building Science department for expert advice regarding your insulation applications. Call 800-233-8990 or visit certainteed.com/buildingscience.

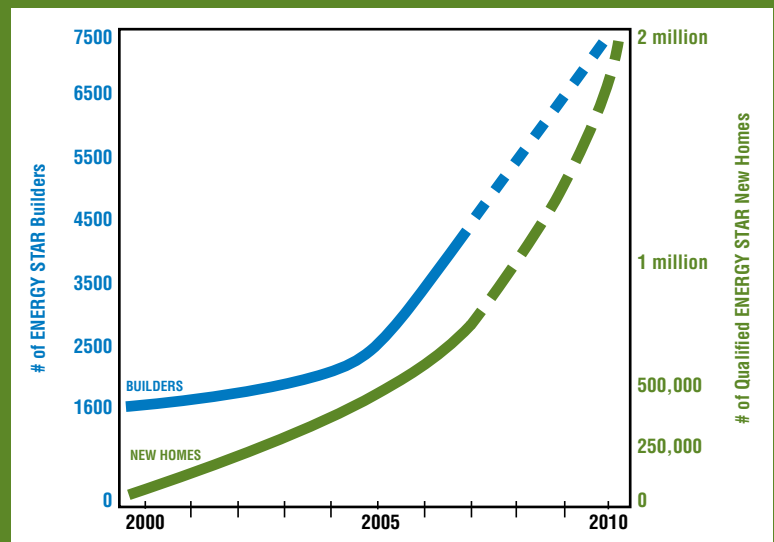

WHY SPRAY FOAM? IT FILLS A VOID IN THE MARKET.

- Appropriate for whole house applications, or in combination with fiber glass.
- Provides effective air sealing for today's complex homes/construction.
- An excellent sustainable solution for green building.
- All-in-one insulation and air sealing system keeps production on schedule.

Builders' and consumers' awareness and interest in energy-efficient homes is growing.

DEMAND FOR QUALIFIED ENERGY STAR® NEW HOMES.

CERTASPRAY FOAM COMPLEMENTS THE COMPLETE LINE OF CERTAINTEED INSULATION.

- A complete line-up of insulation solutions.
- For wood or steel stud construction.
- Both residential and commercial applications.

ISSUES AFFECTING THERMAL PERFORMANCE:

- Insulation
- Ventilation
- Mechanical penetrations
- HVAC systems
- Windows
- Home design
- Exterior cladding
- Air barrier and vapor retarder
- Climate conditions
(wind, sun, temperature and humidity)

The systems used in building a home affect energy efficiency, comfort and overall performance. CertainTeed developed CertaSpray foam with the whole house in mind for maximum performance.

The advantages of CertaSpray™ Open Cell Foam Insulation.

COMPLETE JOBS FASTER.

The fast-rising formula lets you cover more area faster with fewer strokes, less fatigue, less waste; it's also more forgiving with a broad application temperature range.

INCREASE YOUR CASH FLOW.

Order less than a truckload and combine your spray foam and fiber glass insulation orders on the same truck; reduce your inventory requirements.

INCREASE YOUR BUSINESS WITH MINIMUM EFFORT.

Get up and running fast by becoming qualified by CertainTeed, plus get technical support and marketing materials (including a free listing on CertainTeed's website contractor locator).

GREAT PRODUCT AVAILABILITY.

There's a CertainTeed insulation facility near your business.

EVERYTHING YOU NEED FROM ONE SOURCE.

Take advantage of CertainTeed's legendary customer service, order management, logistics, and best-in-class field personnel committed to taking care of you.

ALL FROM A COMPANY YOU CAN TRUST.

For more than 100 years, building professionals have counted on CertainTeed residential and commercial products, services and Building Science support.
