

# VinylShield™ A, C

## PERFORMANCE SERIES

Mineral Fiber Ceilings

### Features & Benefits:

- Designed for sanitary and clean room applications or where low particle emission and maximum cleanliness are required.
- Suitable for cleaning with common disinfecting chemicals.
- Combines USDA/FSIS accepted vinyl with wet-felted ceiling panel.
- Approved by Canadian Food Inspection Agency (CFIA) for use in food establishments.
- Meets federal sanitary requirements for certain clean room and food processing areas.
- Suitable for use as a component in certain clean room assemblies (ISO 14644-1 Class 5/Fed. Std. 209E Class 100/M3.5).
- No added formaldehyde.

### VinylShield™ A

- Vinyl facing provides an easy-to-clean, abuse and stain-resistant ceiling perfect for restrooms, laboratories, hospitals and sanitary food service areas.

### VinylShield™ C

- Vinyl on face and back plus sprayed sealed perimeter edge encloses entire panel and dramatically reduces particle emission for clean room applications.

### Applications:

- Clean Room/Laboratory
- Education
- Healthcare
- Restaurants
- Food Preparation

Relative Installed Cost:
