Quality made certain. Satisfaction guaranteed.TM

{ durham™ aluminum railing system ... }

colors:

Above: Durham Aluminum Railing, White with Basic Rail

Left: Durham Aluminum Railing, White with Over-the-Post

The Durham™ aluminum railing system lets you create the look you want, thanks to its versatile beveled rail design. Crafted of high-quality architectural grade aluminum with a weatherable powder-coated finish, Durham features rugged construction and precision-fit components for a snug, secure fit. Durham's aluminum brackets provide the unequalled strength of a metal-to-metal post connection, while the corrosion-resistant stainless steel screws ensure that Durham will maintain its integrity for years to come.

The Durham Difference:

- Unique beveled rail design
- Convenient universal rail doubles as both the top and bottom rails
- Optional decorative top rail cap snaps over top universal rail
- Secure aluminum brackets provide a solid metal-to-metal connection for flat and stair applications
- Corrosion-resistant stainless steel screws offer a strong and secure fastening system
- Choice of two colors: black and white
- Offered in two baluster styles: straight and twist
- Available in 3' and 3-1/2' heights and 8' and 6' lengths
- Aluminum posts install to surfaces using pedestal floor mount
- Designed to meet ICC-ES standards for aluminum design
- Available in boxed kits or pre-assembled sections
- 10-year limited warranty

Basic Rail with Decorative Top Rail Cap

Basic Rail (Top)

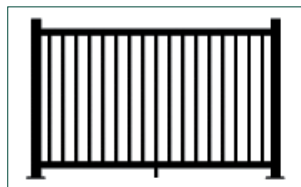

Bottom Rail

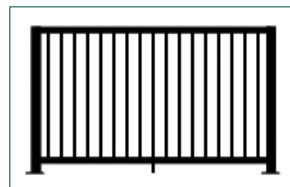

rail systems:

Create three looks from one simple design: the basic beveled rail, the rail running over the post, and the basic beveled rail with decorative top rail cap for 3" posts

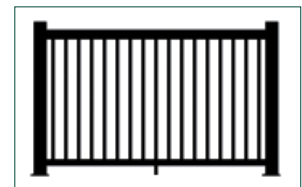

Basic Rail

Over the Post

Basic Rail with Decorative Top Rail Cap (must use with 3" post only)
