A match made in heaven.

CertainTeed 
Quality made certain. Satisfaction guaranteed.™

Color is Freedom.

How will you use it? When you choose Restoration Millwork® Exterior Trim, the freedom is yours to choose colors that correspond, complement or create striking contrasts.

You can paint PVC trim in darker colors thanks to Sherwin-Williams® VinylSafe™ Color Technology.*

CertainTeed ColorMax® FiberCement Finishing System can be applied to WeatherBoards™ siding and now you have the option to match or contrast with Restoration Millwork® PVC trim with the 16 CertainTeed ColorMax® colors by using Sherwin-Williams® VinylSafe™ Color Technology.

Sherwin-Williams paint can also hide nail and putty marks so every little detail will turn out right.

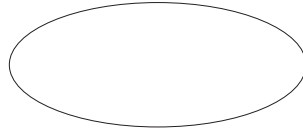

Begin exploring the possibilities.

Go on-line and use our ColorView™ selection tool at www.certainteed.com to explore color possibilities.

**Sherwin-Williams VinylSafe™ Technology colors should be used when choosing darker colors that have a Light Reflecting Value (LRV) of 54 or lower. For colors with an LRV of 55 or higher (the higher the LRV, the lighter the color), you can safely use an acrylic latex paint.*

Sherwin-Williams VinylSafe™ Technology colors can only be applied to Restoration Millwork® trim and not fiber cement siding.

Sherwin-Williams tint formula follows CertainTeed color name.

Vanilla White – CT5

Linen – CT11

Silverplate – CT14
