Cellular PVC Decking with Lumenite[™]

CertainTeed 
Quality made certain. Satisfaction guaranteed.[™]

Make a statement with CertainTeed

Creating the deck of your dreams begins with high-quality, low-maintenance products from CertainTeed. The durable construction never needs sanding or painting and offers easy, secure installation. As part of the CertainTeed Outdoor Living Spaces™ exterior products suite, EverNew® LT Decking can help transform your outdoor space from ordinary to extraordinary. CertainTeed offers everything you need to create and define your own great outdoors, including: siding, soffit and accessories, roofing, porch, deck, railing and fence products.

Spanish Cedar

Jatoba

EverNew® LT

EverNew LT Decking's unique material composition provides performance benefits that go far beyond wood, and surpass those of other composite materials. It's the perfect complement to an easy lifestyle – and a choice you'll appreciate every time you step onto your deck, and into the great outdoors.

EverNew® LT Decking with Lumenite™ Technology by Fiberon®

EverNew LT Decking's solid-core, cellular PVC can take whatever your life dishes out. This new breed of building material stands up to kids, families, pets, blazing sun, harsh weather – and the spills, thrills, wear and tear that come with them.

Lumenite is a patent-pending innovation from Fiberon that gives EverNew LT Decking unsurpassed performance capabilities. An engineered, fusion-bonded surface technology, Lumenite provides the ultimate in stain, fade and mold resistance.

Backed by a limited lifetime performance warranty including 25-year stain and fade warranty.

Note for optimum decking appearance: When dealing with butt joints or multi-chromatic colors, it is suggested you layout 10 or more rows of decking boards across the joists to ensure butt joints are properly staggered and color variations are either randomly dispersed throughout or arranged in the desired pattern. This not only allows you to preview how the deck will look installed, but it also provides easy access to decking boards as you work.

EverNew LT deck boards and fascia

	Actual Width	Actual Thickness	Available Lengths
5/4x6 Deck boards	5-1/2"	1"	12', 16', 20'
Fascia	11-3/4"	1/2"	12'

STAIN+FADE
PROTECTION**

Stain and Fade Warranty

EverNew LT Decking is not affected by wine, tea, coffee, catsup, barbecue sauces, mustard and the many other drips and spills of outdoor dining. And, extensive testing proves that EverNew LT colors will stay true after years of exposure to the sun and elements.

Easy, Accurate Installation

EverNew LT installs without pre-drilling and won't mushroom like wood. It can be fastened to a pressure-treated wood substructure and is lighter in weight than other composite decking materials so it's more installer-friendly.

Independent tested as designated in report CCRR-0152.

Optional Hidden Fastener System

For the ultimate in a smooth, clean appearance, EverNew LT Decking can be installed using a system that "hides" the fasteners. The key to this system is the Deck Pilot™. The Deck Pilot™ tool is designed exclusively for EverNew LT decking and offers contractors fast and easy installation. Deck screws are installed at the proper angle and precise depth every time. And there is no need for extra hardware.

CertainTeed products are designed to work together and complement each other in color and style to give your home a beautiful finished look.
