FASCIA
NOW AVAILABLE
IN ALL COLORS

Creating the deck of your dreams begins with high-quality, low-maintenance products from CertainTeed. The durable construction never needs sanding or painting and offers easy, secure installation. As part of the CertainTeed Outdoor Living Spaces™ exterior products suite, EverNew® PT Decking can help transform your outdoor space from ordinary to extraordinary. CertainTeed offers everything you need to create and define your own great outdoors, including: siding, soffit and accessories, roofing, porch, deck, railing and fence products.

EverNew® PT

EverNew® PT decking with PermaTech™ technology. The surface technology delivers a wide range of colors ranging from solid colors with natural looking, wood grain embossed patterns to tropical and variegated colors with exotic hardwood tones and grain patterns. Now homeowners get the best of both worlds.

Castle Gray

Tudor Brown

EverNew® PT Decking with PermaTech™ Innovation

EverNew® PT Decking's solid-core, wood plastic composite is designed for strength, durability, and rigidity. The inorganic, patent-pending PermaTech™ technology provides a resistant surface material and superior stain, fade and mold resistance. Tested to withstand the unexpected, nothing defies the elements quite like EverNew® PT Decking with PermaTech Innovation.

Backed by a 25-year performance warranty including 25-year stain and fade warranty.

EverNew PT deck boards and fascia

	Actual Width	Actual Thickness	Available Lengths
5/4x6 Deck boards (grooved)	5.4"	.95"	12', 16', 20'
5/4x6 Deck boards (square edge)	5.4"	.95"	20'
Riser Board/Fascia (Rosewood Tropics, Ipe Tropics, Castle Gray, Tudor Brown)	7-1/4"	3/4"	12'
Fascia (Rosewood Tropics, Ipe Tropics, Castle Gray, Tudor Brown)	11-1/4"	3/4"	12'
Fascia (Slate, Bronze)	11-3/4"	1/2"	12'

Note for optimum decking appearance: When dealing with butt joints or multi-chromatic colors, it is suggested you layout 10 or more rows of decking boards across the joists to ensure butt joints are properly staggered and color variations are either randomly dispersed throughout or arranged in the desired pattern. This not only allows you to preview how the deck will look installed, but it also provides easy access to decking boards as you work.

Slate

Stain and Fade Warranty

EverNew® PT Decking is not affected by wine, tea, coffee, catsup, barbecue sauces, mustard and the many other drips and spills of outdoor dining. And the industry-leading color retention is unmatched by any other product.

Fastening

EverNew PT decking requires two fasteners at each end but only one fastener per joist. For the professional deck builder – this installation efficiency results in a 40% reduction in fasteners and a 30% reduction in labor. Since EverNew PT decking is grained on both sides, two usable faces are available. This reversible board option may reduce waste by 15%.

Optional Hidden Fastener System

The use of Fiberon approved Hidden Fastener System is highly recommended with EverNew PT grooved decking to create a smooth, unblemished decking surface.

Gunnable Fastener

Install the Fiberon approved Hidden Fasteners 50% faster with the Ballistic Nailscrew Driver, attachment and Ballistic Nailscrews. The Driver Attachment is for use with only the Ballistic Nailscrew Driver and the Hidden Fastener used on the grooved boards.

CertainTeed products are designed to work together and complement each other in color and style to give your home a beautiful finished look.
